Note: This abridged life table is constructed from the estimated population in 1988, 1989 and 1990 and the total number of deaths registered in these years. The column headed I<sub>x</sub> shows the numbers who would survive to the exact age of x, out of 100,000 persons who, from birth, were subject to the mortality probabilities indicated by the death records for 1988-1990. Column e<sub>x</sub>° shows the expectation of life, that is, the average number of years of life left to persons aged exactly x who are subject to the 1988-1990 mortality probabilities from age x onwards.

<sup>&</sup>lt;sup>1</sup> Areas of former Argyll & Clyde inherited by new Boards on 1st April 2006.

<sup>&</sup>lt;sup>2</sup> New Board areas including parts of former Argyll & Clyde.
